## DETAILED ACTION

### *Election/Restrictions*

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-3, 10-12 and 16, drawn to methods for obtaining a fragment of bovine DNA, classified in 435/91.2.

Group II, claim(s) 4-9 and 13-15, drawn to oligonucleotides, classified in 536/24.31.

2. The inventions listed as Groups I-II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Claim 1 is broadly drawn to a process for obtaining a fragment of bovine DNA which has a defined size and sequence and is specific to bovines. The claim does not specify which fragment is to be amplified, and as such the claim is broadly read to include the amplification of any sequence specific bovines. Silversides *et al.* (US 5596089) describes such a method of PCR amplification of the specific sequences of the male bovine chromosome (Example 1, Col. 12). Therefore, the instant invention lacks a special technical feature which distinguishes it over the prior art and further is lacking Unity of Invention.

3. A telephone call was made to Thomas Perkins on 8/21/00 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 1655

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Juliet C. Einsmann whose telephone number is (703) 306-5824. The examiner can normally be reached on Monday through Thursday, 7:00 AM to 4:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, W. Gary Jones can be reached on (703) 308-1152. The fax phone numbers for the organization where this application or proceeding is assigned are (703) 308-4242 and (703) 305-3014.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-0196.
